

Title:

Lenovo L490 Laptop, cellular option is not available:

Summary/ Intro:

Although the sim card is inserted into the sim tray, the cellular option is not available. As a result, cannot connect via the sim card

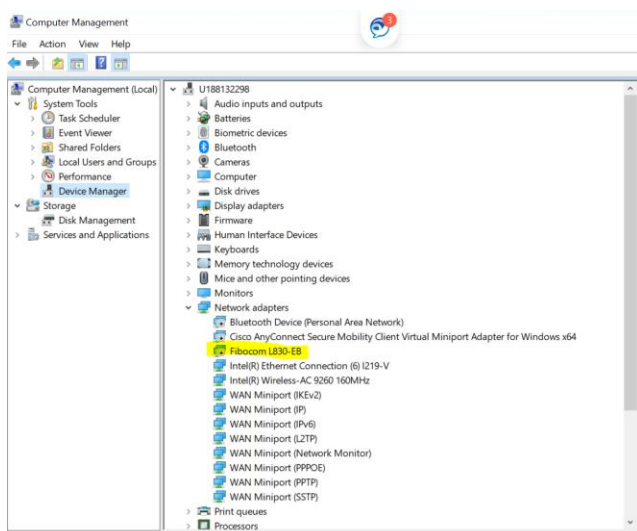

Steps:

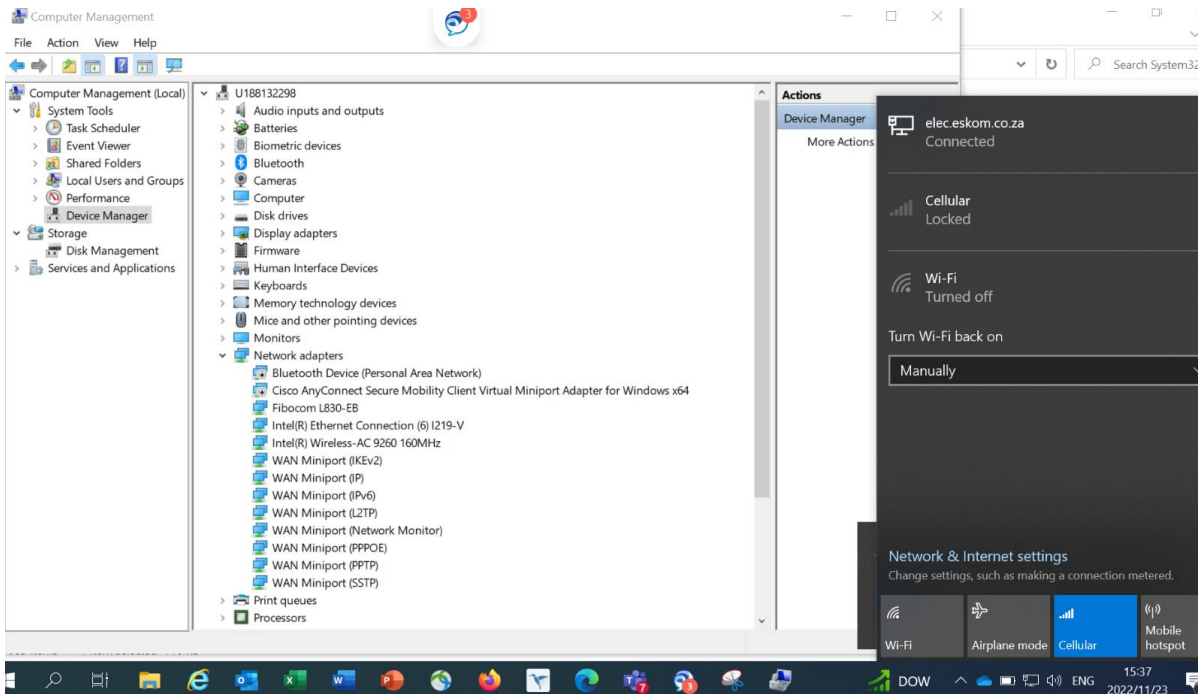

Fix:

Go to Device Manager and Enable Fibocom L830-EB

After : Fibocom L830-EB is enabled:

Conclusion (Optional):

In the Bios of the Lenovo L490 **Ensure Wireless WAN is enabled**, this can be found under **Security – I/O Port Access**
