Title:

Stop Internet explorer from redirecting to Ms Edge.

Summary/ Intro:

Opening Internet explorer and automatically switches to Microsoft edge.
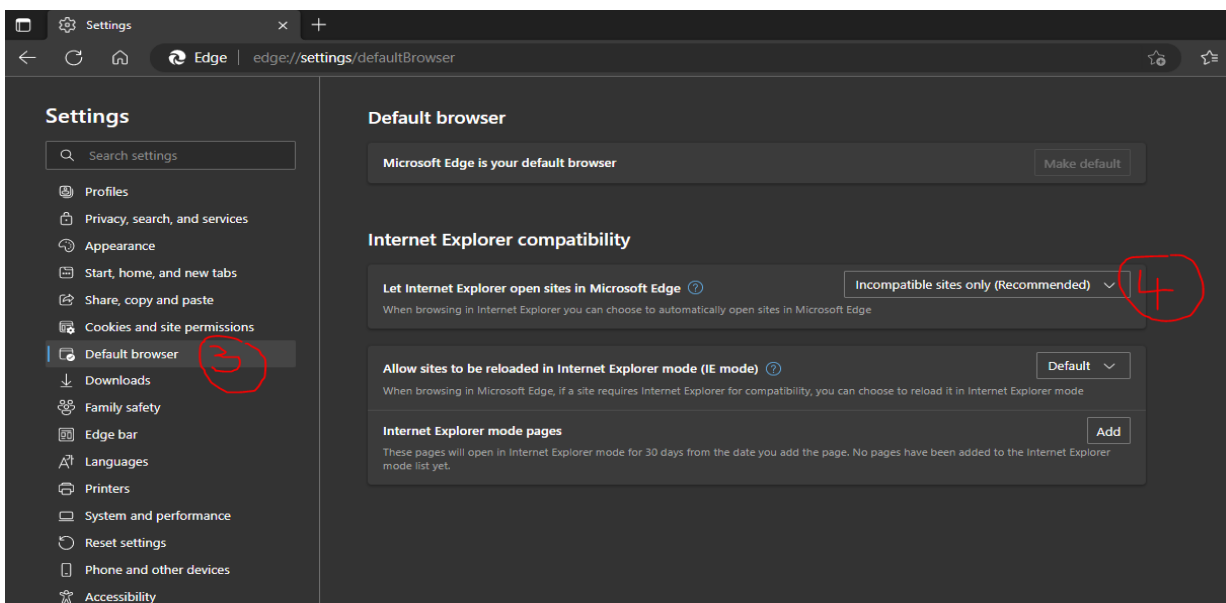

Steps:

Step 1: Open Microsoft Edge

Step2: Go to **Settings (**you will find settings after clicking the 3 dots on your righ**t** ··· **)**

Step3: Navigate to D**efault browser**

Step4: Find **Let Internet Explorer open sites in Microsoft Edge and** Set this option to **Never**

Conclusion (Optional):

Maximize your browser, if minimized you won't be able to see the default browser option after clicking Settings.

If minimized click on the 3 lines next to settings on your left.
